## White Star Liner Rammed and Sunk Off Antlucket Shoals

New York, Jan. 24.—On Saturday morning while the Star liner Republic, bound for a winter cruise in the Mediterranean with a 4-man and tourist passengers gathered on all parts of the United States on board, was steaming slowly off the Antlucket shoals in a dense fog she was rammed almost amidships by the Italian liner Florida. The sea was calm and the Florida stood by to render assistance.

**WRECKED A MARVEL OF UTILITY**

That the Republic was seriously damaged was seen from the very first, and the witness immediately proved of marvellous utility. Almost immediately the ill-fated steamer was in communication with the master of the Florida, and 14 hours later the steamer through the fog and took the passengers, numbering nearly a woman, off the Italian liner.

In explanation it might be mentioned that mail steamers may turn out to be a very useful thing, not only to save life, but also to render assistance to the reason of the battle taking, the passengers of the Republic were saved, and leaving the Republic at the scene of the wreck, to be taken to other ports.

When the sharp prow of the Florida, crowded with the hull of the Republic, first-class passengers were killed in their berths, W. E. McManis, captain, N. D. and Mrs. Eugene I. Mack, Boston, while on the deck, were believed to have been killed before the ship in imminent danger, the passengers to the Florida, and later when the Republic was raised, the captain, who took the passengers of both ships to her, and the Republic was last making way, and when the Republic was raised, the captain came ashore to the Florida. The Republic was last making way, and when the Republic was raised, the captain came ashore to the Florida.

**THRILLING RACE TO SAVE REPLICANS**

The fight for the safety of the passengers was of first importance. The Republic was rammed and sunk, and the Florida was left to save the great liner, which was lost. Capt. Towley and his men at the Antlucket shoals.

## Wind Jammer Goes To Pieces

Vanover, Jan. 24.—Bound from Chicago to Port Townsend in ballast, the lumber steamer Wind Jammer, arrived in Strathcona Jan. 24. Captain Jamison, who was on board, was killed by the ship's light for fuel and exploded between it and Cape. The ship was in the water, and the captain was killed. The ship was in the water, and the captain was killed.

## Capital City in Grip Of Frost King

Ottawa, Jan. 24.—The capital and district is in the grip of the frost king. The city is in the grip of the frost king. The city is in the grip of the frost king.

## Wants Compensation Act Amended

Lethbridge, Jan. 24.—At the last meeting of the Lethbridge City Council it was recommended that the Lethbridge City Council should look up the record of the Lethbridge City Council.

## Lord Northcote Will Be Next Governor-General

London, Jan. 24.—It is learned that Lord Northcote, former Governor-General of Australia, who was in Canada on his way to London, will be the next Governor-General of Canada.

## Brilliant Function At The

Ottawa, Jan. 24.—The Excellency Earl Grey and Lady Grey, on Saturday night, gave what will probably be the last drawing room of their residence in Canada. The scene in the solemn chamber, where nearly 600 people were present, was a brilliant one.

## Spaffin Mayor Dismayed

Asquith, Jan. 24.—In explanation of dynamite being Saturday destroyed the residence of the mayor. Neither the mayor nor any member of his family were injured.

### LOCAL NEWS

Miss Pille of Edmonton will be one of the singers at the W. C. T. U. concert on February 4th.

Mr. Geo. Johnson, of Winnipeg, who owns property on Whyte Avenue west, was in the city yesterday.

The Guild School which was to have taken place at the home of Mrs. F. C. Japienton this evening has been postponed.

The Ladies' Aid of the Methodist Church will have a social at the home of Mr. and Mrs. Tuttle on Friday, January 25th, at eight o'clock. Program and tea, ten cents.

The annual meeting of the Strathcona Board of Trade will be held on the second Tuesday in February. At this meeting the election of officers for the year will be decided upon.

At five o'clock yesterday morning the house was called out to extinguish a fire in Waterdale. A wood pile near the Church of Christ had caught fire and threatened the building itself. Very little damage was done.

A popular entertainment under the auspices of the W. C. T. U. will be given in the Opera House on Thursday evening, February 4th. Miss Ednam, of Edmonton, will be the soloist, and will be assisted by Strathcona musical talent.

Attention is being called by the Chief of Police to a provision of the market by-law which requires that all coal, hay, etc., sold by weight shall be weighed on the city scales. Citizens buying coal or hay will find it to their interest to see that the tonnage has a check from the city weighing master.

The regular semi-monthly meeting of the Strathcona Grange lodge will be held on Thursday, Jan. 25th, in their lodge room on Second Avenue North. All the members are requested to attend, as this is the last meeting before the annual county meeting, and there will be some important business to discuss.

On Sunday evening Rev. H. E. Gordon, pastor of the Metropolitan Methodist Church, preached the first of a series of sermons on the young man taking as his subject "The Young Man in Business; January 31, 'The Young Man in Society; February 7, 'The Young Man in Politics; February 14, 'The Young Man in Religion.'

A large audience assembled in the lecture room of the Collegiate Institute, on Saturday afternoon to hear the second of a series of lectures by Professor on English Literature. The lecturer took up the period of English literature dominated by Chaucer and dealt with the influence of the poet on the nation's literature and the conditions prevalent at the time of the writing of the first English verse, the Canterbury Tales.

On Sunday morning about one o'clock a fire alarm was rung in from Box 22 for a blaze in the residence of Mr. A. K. Kipf, Second Avenue north and Third street west. Despite the exclamations of the hour the brigade responded promptly, and after considerable trouble got the fire under control. The chemical engine was used and it being found necessary to utilize the hydrants. The blaze was caused by the upsetting of a lamp in one of the bedrooms.

The hockey match between the University and Edmonton High School resulted in a win for the Edmonton boys by a score of 3-2. The teams lined up as follows:  
University—Goal, Delong; point, Hyslop; cover, Leuker; rover, Miller; centre, Fife; right wing, Hanny; left wing, Rutherford.  
Edmonton High School—Goal, Courtney; point, Hepburn; cover, York; rover, Fraser; left wing, Ross.  
Timekeeper—L. R. McKee, Strathcona.  
Referee—P. Belcher and H. Montgomery.  
Referee—H. Dixon.

**MAY BUILD IN SPRING**  
With the advent of the spring among other buildings which are contemplated is city offices. At the present time the city is paying rent for the city offices in the Old Fellows' hall. The city has several centrally situated lots, the price of which has been paid, and which are now entirely utilized. The rent which is being paid for the city offices at present would go a long way towards paying interest on a very considerable capital outlay.

It is proposed to erect a substantial brick building on the city property just west of the fire hall. This building would be used for city offices, police station, police court, etc. A committee of the city council, composed of Aldermen Sheppard and Donnan, with the Mayor, is now engaged in going into the matter of preliminary plans, and they will report to the council in the course of a week or two.

### EAT SAUSAGES OR NEW BREAD.

You can eat anything your stomach craves without fear of a case of indigestion or dyspepsia, or that your food will ferment or sour on your stomach if you will occasionally take a little Diaphepsin after eating.

Your meals will taste good and any thing you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which causes belching, flatulency, a feeling of fullness after eating, Nausea, Indigestion (like a lump of lead in the stomach), Hiccoughs, Heartburn, Waterbrash, Pain in stomach and luteal crises or other symptoms.

Diaphepsin from the stomach are absolutely unknown where this effective remedy is used. Diaphepsin really does all the work of a healthy stomach. It digests your meals when your stomach can't. Each Triangule will digest all the food you can eat and leave nothing to ferment or sour.

Get a large 50-cent case of Paper's Diaphepsin from your druggist and start taking today and by tomorrow you will actually brag about your strong stomach. For you then eat anything and everything you want without the slightest discomfort or ill effects and every particle of fat, sugar and gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

### LAMONT

We have been having quite a time lately with cold and frost, and today, the 21st, it has been quite a blizzard from the east. On the 7th we had about 12 degrees below and the wind blowing from the west, and lots of travellers got checks, nose and chin frozen. There was no escape from it, still all this is soon forgot, if it is not too bad. This is a "great country," no doubt, and Alberta's climate can't be faulted. The severe frost now over. Soon the snow will be going.

Lots of farmers have been getting their firewood cut by the old-fashioned machine, which does good work and does it quickly. This wood cutting in the past has been the farmer's grievance, only times are changing, and machinery is lifting many a burden off the farmer's shoulders.

Joe Alton was returned as a candidate for this Statute Labor District, his opponent, Mr. Hattabach, losing by about four votes. It was quite a battle, bringing all the forces into play. Lamont is quite a place.

Rev. Mr. Howard, Methodist minister, is still sick and unable to preach.

We'll expect lively times soon as provincial elections, also to get the news when Federal Parliament meets. Mr. White, our M.P., is off to Ottawa to try his luck. Physically he is a good sample of our great Northwest. "Noble" is all right.

### COAL BUCKET FELL ON HIM.

Couldn't Walk for Two Months.  
Worker Over His Restoration to Zam-Buk.

Mr. Daniel, Goldford, of Bay Street, St. Paul, Minn., Ont., says: "While employed superintending the unloading of a coal vessel at Coleman's Colliery, a heavy coal bucket in descending into the vessel to be refilled and daily overturned, striking my left leg and scarring the flesh off to the bone. I was compelled to discontinue work and go home for treatment, where I was confined for about two months. "When able to get out again I got cold in the wound, inflammation started, the wound opened again, and for another month I was unable to move. I tried all manner of things to get ease and get the wound to heal, but nothing seemed able to do it. Not only did everything I tried seem useless so far as healing went, but I could get no ease from the itching and the burning pain. At times I was just about crazy with the intense itching pain, and night and night got no sleep whatever.

"Not until my wife began applying Zam-Buk did I find relief. When applied to be injured member this quickly soothed the pain, and as we continued using it each day brought an improvement. The throbbing pains were soon banished, the inflammation and soreness relieved, and the wound thoroughly cleaned of all poisonous and unhealthy matter.

"Healing then began, and in a wonderfully short time—considering the seriousness of the wound—Zam-Buk effected a complete and lasting cure. I have since had no trouble with the limb at all, and it is as sound and strong as ever before the injury."

Zam-Buk is a sure cure for cuts, in corruptions, burns, scalds, ringworm, cold sores, chapped hands, poison, eczema, footrot, sore, bad leg, all skin injuries and diseases. It is also a cure for piles. Druggists and stores everywhere sell at 5c a box or post free from Zam-Buk Co., Toronto, on receipt of price. We are warned against harmful imitations sometimes presented as "just as good and cheaper."

### PUBLIC NOTICE.

Section "Arrest of the Market by Law" means that all coal, hay, etc., sold by weight shall be weighed on the city scales. This by-law will be strictly enforced by the police. By order.  
P. MERIAN,  
Chief of Police.

### Highland Beach.

There are 100,000,000 seaweed plants. They are all either muscular or female. Fish, fowl, star fish, rock, etc., etc., are muscular. Star fish, sea urchins, etc., are muscular. A full grown muscular star fish, sea urchin, etc., is muscular. The ocean is muscular; the sea is muscular. Strangely to say, the word for "female" is a muscular. And the word for "muscular" is a female. But these two curious exceptions stand practically alone.

In the construction of sentences English people are very different from English people who know enough about the language to write the sentence "She will tell you, for instance, that in telling you have to talk backward. It is this point that you do not see in the using the same word that you would begin with in English. In English the verb comes before the noun and the noun before the adjective. Thus, if you were going to say "A wise man shows evil companions" you would arrange your words in this order: "showing a man wise companions evil." This way of putting the verb at the very beginning of a sentence is really better than having it follow the noun. The English of the world is really better than having it follow the noun. The English of the world is really better than having it follow the noun.

**Banana Leaves.**  
Banana leaves serve many useful purposes. For them are made tough paper from which the natives make their earthenware, clothing, hats and brushes, and hammocks. Millions of pounds of banana fiber, matted and made "banyan" are each year sent to the United States. Taken to Europe and spun into cordage from the fibers of the banana leaves. The left fibers of the women of South America and of the far east.

**The Liner's Variety.**  
Some years ago Mr. Paul Villars, London correspondent of the Commercial Press, went to Liverpool on the occasion of a great National meeting. On arriving at the hotel he was taken to a room in the front of the house. A servant took him to a small room, looking on to an inner courtyard. Mr. Villars went to the window and saw a full-blown flower. He said: "This is not the front of the house," and he said: "Oh, yes, sir," the servant said, "it's the back of the front."

**He Probably Spoke.**  
"I say, Mr. Johnston," said little Tommy, "are you fond of speaking?" "Not very," Johnston replied. "You don't speak much?" "Well, not a great deal." "I don't think so," said little Tommy, "because I heard Sister Agnes say she married today that she had been waiting six months for you to speak."

### A PRINCE OF DWARFS.

Corner of the Famous Count Joseph Durnwald.  
The most famous dwarf who has lived in the history of the world is undoubtedly Count Joseph Durnwald. Whose long life—did at the age of about eighty years—is another example of the longevity of his kind. Durnwald stood only three feet three inches in height. This did not prevent him from marrying a beautiful woman or from making in the last court society of the Georgian period. He was very amiable and received at Carlton House by George IV. a few weeks before that monarch's coronation. He was very kind to his dwarf's physical grace and mental accomplishments were the things which Charles Matthew, who had brought the little man, "if I had seen him, I could not wish that he were perfect model of elegance than any man."

Durnwald's last days were spent in peaceful retirement in the city of Durham. He died at the age of 80. He never added a quarter of an inch to his three feet three inches. When he died he was 80 years old. He only asked for his autograph, he sent these lines:  
I am your most devoted servant,  
Durnwald.  
He had known Maria Antonette as a child, and he was living when Queen Victoria was crowned. It is in the Church of St. Mary the Less at Durham, close to the cathedral, in which his body lies, that you read the following inscription:  
"Near this spot repose the remains of Count Joseph Durnwald, a native of Pomerania, in the last kingdom of Poland. His extraordinary mind measured no more than three feet three inches in height; but his form was well proportioned, and he possessed a more than common share of understanding and benevolence. After various changes of fortune, he died with cheerful resignation to the will of God, in the city of Durham, on the 10th of April, 1870, in the ninety-first year of his age."—N. Y. O. of Times.

**Crawford and Footstep.**  
The friends of Crawford: What is footstep? Everybody knows it. It recognizes that paper footstep also means a standard measurement of three inches by six inches, yet how few can give the reason why. In England the paper footstep was originally a creature when the commonwealth was set up. Crawford was approached as to what should be used to set a bar. He, with characteristic contempt for common sense, replied: "A footstep," and it became a standard. For the restoration the matter was overlooked until late to set upon the ultimate legislation—London Chronicle.

**A Verbal Difference.**  
The difference between having a tooth drawn by a professional man and having it knocked out with a fall on the pavement is only a verbal one. The one is dental, the other ecclesiastical.

**Dividing the Task.**  
The real division of labor as a business can put before me, is "She says it and I do it."—Bishop of Bristol.
